ORDER

IT IS HEREBY ORDERED that application A-18750 is APPROVED subject to the following limitations and conditions:

1. The source of water is Turkey Creek.
2. The water shall be used for the purpose of irrigation.
3. The priority date is February 23, 2011.
4. Only the land shown on map number 17799 may be irrigated under appropriation A-18750.
5. The rate that water may be diverted under appropriation A-18750 shall not exceed one cubic foot per second (cfs) for every 70 acres irrigated.
6. This appropriation is subject to the provisions of the Blue River Compact and could be closed if Compact flows are not being met.
7. The appropriator must comply with all relevant statutes. The statutes include, but are not limited to, the following:
 - A. Notify the Department of any change in ownership or address.
 - B. Notify the Department of the name and address of the person responsible for the use of the water appropriation (this may include farm managers, tenants, or relatives that actually apply the water to the approved use).
 - C. Getting approval from the Department prior to taking any action that changes the location of the point of diversion, the location of the place of use, the type of use, or the type of appropriation.

DEADLINES

1. The appropriation is not considered perfected until water has been beneficially applied for the purpose stated in this approval. The water appropriated under A-18750 must be beneficially used by September 1, 2013.
2. After September 1, 2013, a field investigation will be conducted to determine the amount of water used and acres irrigated, after which an order of cancellation will be issued for any unused portions of appropriation A-18750.

ADDITIONAL INFORMATION

Failure to comply with all laws and regulations pertaining to surface water appropriations, any orders issued by the Director of the Department of Natural Resources, or the provisions of this Approval may result in the cancellation of the appropriation, temporary closing of the appropriation, administrative penalty, criminal prosecution, or any combination thereof.

This appropriation is not a guarantee that water will be available. Nebraska law gives priority to senior appropriators. This appropriation may be closed if there is insufficient water to satisfy senior appropriators.

Nebraska law provides that failure to use a portion or all of a perfected appropriation for more than five consecutive years may result in cancellation of the appropriation.

If in the future you are not able to divert sufficient amounts of water, and if there are junior appropriations upstream, you may call for water by contacting your local field office.
